

Kush Rajesh Shah

Forward Deployed Engineer

United States | 571-587-5328 | kushs2511@gmail.com | linkedin.com/in/kushshah1025 | [Portfolio](#) | [GitHub](#)

Technical Skills

- AI Deployment: Claude API, LLM Integration, AI Agents, RAG Pipelines, Prompt Engineering, Spring AI
- Languages: Python, Java, JavaScript, TypeScript
- Backend & APIs: Spring Boot, FastAPI, Node.js, REST APIs, GraphQL, JWT / RBAC
- Enterprise Platforms: ServiceNow (REST APIs, Business Rules, Flow Designer, Transform Maps, ITSM)
- Cloud, DevOps & Integration: AWS, Docker, Kubernetes, Terraform, GitLab CI/CD, Kafka, Microservices
- Databases & Tools: MongoDB, PostgreSQL, Redis, MySQL, Git, Jira, Postman

Education

Master of Science in Computer Science

George Mason University

Aug 2023 - May 2025

Fairfax, Virginia, USA

Experience

Stateable

Nov 2025 – Jun 2026

Software Engineer

Remote, USA

- Owned an AI deployment end-to-end for insurance operations: shipped a production Claude API + AI agent pipeline directly into the quote and commission workflow, achieving 80% straight-through processing with zero manual intervention.
- Solved unstructured data ingestion at the client's scale by building ETL pipelines and regex-based data cleaning into MongoDB, standardizing 100+ real-world document types at 95% extraction accuracy.
- Reduced deployment risk in a live production environment by containerizing services with Docker on AWS Lambda and automating releases via GitLab CI/CD.

Accenture

Aug 2021 – Aug 2023

Software Engineering – Application Development Associate

Pune, Maharashtra, India

- Embedded directly with 3+ business units to design and deploy ServiceNow REST APIs automating outbound ITSM notifications, freeing a 10+ engineer team from manual status updates and cutting response time by ~30%.
- Translated stakeholder requirements into Client Scripts, UI Policies, Business Rules, and ACLs across 5+ custom ServiceNow applications, enforcing data integrity and role-based access with zero unauthorized access incidents.
- Automated multi-step approval escalations via Flow Designer across 4+ enterprise service operation teams and built Transform Maps to auto-generate tickets from client-supplied Excel data at 99% accuracy.

WoMen of Connections Ministry Inc.

July 2025 – Nov 2025

Technology and Software Development Intern

Remote, USA

- Rebuilt a static platform into a dynamic full-stack application using ReactJS and Spring Boot REST APIs, cutting page load time by 30% and API latency by 20% for 20+ tested users.

Projects

AI-Powered IT Help Desk | ServiceNow, Flow Designer, REST API, LLM

Jun 2026 – Present

- Deployed a custom ServiceNow application integrating an LLM via outbound REST API to auto-categorize incidents, suggest resolutions, and assign priority levels, cutting triage time by ~70%.
- Designed Flow Designer workflows with ACL-based routing to automate ticket assignment across employees, agents, and managers based on AI categorization output.
- Enforced consistent data capture via Client Scripts and UI Policies, and triggered automated ITSM notifications at each workflow stage via Business Rules.

AI-Powered Career Skill Navigator | Next.js, TypeScript, FastAPI, LLM, RAG

Nov 2025 – Dec 2025

- Built a RAG pipeline using FastAPI and LLM embeddings over a structured knowledge base of 30+ skills, reducing irrelevant AI responses versus baseline prompting.
- Shipped a full-stack Next.js and TypeScript frontend with a real-time chat assistant and searchable skill cards for end-user exploration.

Certifications

- Certified Application Developer (CAD), ServiceNow (Expired)
- Certified System Administrator (CSA), ServiceNow (Expired)
- Microsoft Azure AI Fundamentals (AI-900), Microsoft Power Platform Fundamentals (PL-900), Microsoft
