

Kush Rajesh Shah

AI Engineer

United States | 571-587-5328 | kushs2511@gmail.com | linkedin.com/in/kushshah1025 | [Portfolio](#) | [GitHub](#)

Technical Skills

- Languages: Python, Java, JavaScript, TypeScript
- AI & Automation: Claude API, LLM integration, AI agents, RAG pipelines, ETL pipelines, Kafka, Prompt engineering, Spring AI, Groq
- Frameworks: Spring Boot, FastAPI, Node.js, ReactJS, Next.js
- Databases: MongoDB, PostgreSQL, Redis, MySQL, DynamoDB
- Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, GitLab CI/CD
- Testing, Tools & Competencies: JUnit 5, Pytest, Postman, Git, Jira, Stripe, Microservices, Agile

Education

Master of Science in Computer Science

George Mason University

Aug 2023 - May 2025

Fairfax, Virginia, USA

Experience

Stateable

Nov 2025 – Present

Software Engineer

Remote, USA

- Eliminated manual insurance document processing by building an end-to-end AI automation pipeline using Claude API, AI agents, and Python, achieving 80% straight-through processing for quotes and commissions.
- Solved unstructured data ingestion at scale by building ETL pipelines and regex-based data cleaning into MongoDB, standardizing 100+ document types at 95% extraction accuracy.
- Reduced deployment risk by containerizing services with Docker on AWS Lambda and automating releases via GitLab CI/CD, enabling zero manual intervention in production deployments.

WoMen of Connections Ministry Inc.

July 2025 – Nov 2025

Technology and Software Development Intern

Remote, USA

- Rebuilt a static platform into a dynamic full-stack application using ReactJS and Spring Boot REST APIs, cutting page load time by 30%, API latency by 20%, and improving usability for 20+ tested users.

Accenture

Aug 2021 – Aug 2023

Software Engineering – Application Development Associate

Pune, Maharashtra, India

- Eliminated manual client communication by designing ServiceNow REST APIs to automate outbound ITSM notifications across 3+ business units, reducing response delays by eliminating manual handoffs for a team of 10+ engineers.
- Automated SFTP file transfer workflows with programmatic ServiceNow ticket generation, reducing manual processing overhead across daily transfer cycles.
- Replaced error-prone manual data entry by building Transform Maps to auto-generate ServiceNow ITSM tickets from Excel data at 99% accuracy, improving SLA compliance.

Projects

AI-Powered Career Skill Navigator | Next.js, TypeScript, FastAPI, LLM, RAG

Nov 2025 – Dec 2025

- Delivered context-aware career and technology recommendations by building a RAG pipeline using FastAPI and LLM embeddings over a structured knowledge base of 30+ skills, reducing irrelevant AI responses vs baseline prompting.
- Enabled dynamic exploration of tech stacks and career paths by building a full-stack Next.js and TypeScript frontend with a real-time chat assistant and searchable skill cards.

Online Event Booking Platform | Java, Spring Boot, Redis, Kafka, Stripe, Spring AI

Jan 2026 – Feb 2026

- Built a high-concurrency event booking platform using Spring Boot microservices and MongoDB, eliminating overbooking via optimistic locking and reducing DB queries by ~60% via Redis caching.
- Automated payments via Stripe and delivered AI-powered features using Spring AI with Groq LLaMA 3.3, enabling natural language event search and personalized recommendations.

Microservices Based Survey Management System | Python, FastAPI, MySQL, Docker, AWS

Apr 2025 – May 2025

- Migrated a monolithic system to FastAPI microservices, reducing deployment cycle time by 60% and deployment time by 70% via Docker, Kubernetes, and AWS CodePipeline CI/CD.

Certifications and Publications

- Microsoft Azure AI Fundamentals- AI-900, Microsoft Power Platform Fundamentals- PL-900 by Microsoft
- Certified Application Developer (CAD), ServiceNow
- Certified System Administrator (CSA), ServiceNow
